Work Experience

Undergraduate Researcher – EREE Program

Worcester Polytechnic Institute - Worcester, MA,

June 2025 – July 2025

- Developed new features and interface updates for **PMKS+**, a web-based planar mechanism kinematics simulator.
- Collaborated with faculty mentors and other researchers to improve the tool's performance and user experience.
- Worked both remotely and on campus, contributing to software design, testing, and implementation in Angular and TypeScript.
- Applied mechanical system modeling concepts to enhance simulation accuracy and visualization tools.

Mailroom Assistant

Worcester Polytechnic Institute - Worcester, MA

August 2024 – Present

- Sorted, distributed, and delivered incoming and outgoing mail for students, faculty, staff, and departments.
- Packaged, labeled, and processed shipments via postal and courier services.
- Maintained accurate records of mail transactions and package deliveries.
- Provided customer service by assisting inquiries and recipients with mail retrieval.
- Operated office equipment such as postage meters, scanners, and mail sorters.
